

CLEANSSETTE

Optical connector cleaner

Patented

Hobbes CLEANSSETTE is a new design optical connector cleaner on today's market. The concept of CLEANSSETTE by using both sides of cleaning reel is able to reduce the reel cost but also more environmental friendly. It is suitable for the most common connector types. It is the most suitable cleaning tool for on-site staff and inspection staff.

CLEANSSETTE features a 32 feet densely woven dry cloth reel which provides superior cleaning performance while minimizing static charge, ensuring that debris is not instantly attracted back onto the fiber tips. The 32 feet cloth can be used over 450 times.

Features

- Minimizes static attraction
- Ultra clean micro-fiber cloth captures debris and other contamination
- The cloth is robust, it does not fray or leave any fibrous materials behind
- Eco-friendly and low cost double sides reel cleaning design
- Easy to remove the cleaning reel without cause any contamination
- The unique design of Cleanssette is able to withdraw the used part of reel in same length in order to reduce the unnecessary waste
- Dry cleaning

Specification

- Window type: 2-slots
- Cleaning quantity: More than 450 cleaning per unit
- Suitable connector: FC simplex, FC duplex, SC simplex, ST simplex, ST duplex, LC simplex, LC duplex, MU simplex, D4, SIN
- Reel cord can be replaced
