The **G5 SCM** works in conjunction with Fujikura past & present fibre optic splicing machines models 70S, 70S+, 70R, 90S & the 90R ribbon machine and the Sumitomo 71c & 72c splice machines.

Houses both the FIST-GC02-F (Flat) splice closure & FIST-GC02 round dome closure mainly used on the railways around the U.K. However most dome closures will work on the table.

GlobalTMP have designed the bespoke industrial telecommunications state of the art jointers work table.
