Improvement Sheet V1.2

SPECIAL OFFER

NEW 90S+ Advanced Splicing Machine Kit

The 90S+ is a single fibre core alignment fusion splicer setting a new standard in the market for fusion splicing. The 90S+ is packed with a whole host of new and enhanced features specifically developed with the objective of enabling the user to work faster with higher precision.

Overall splice process time has been significantly reduced against our previous model (70S+). This has been achieved with a combination of improvements to the reaction time of the automated wind protectors and automated heater, new fibre retention clamps, improved universal sheath clamps and a redesigned internal structure that matches the protection sleeve to the fusion splice point which enables splicing to be achieved without the need of the user to touch the 90S+ once the process has started.

Key Benefits and Features

- Active Fusion Control Technology (AFCT) - combining real-time fusion control with the cleave end-face analysis to determine the correct arc power to complete the splice.
- Market leading high precision and accurate core alignment technology with advanced image processing technology
- Improved automatic wind protector design which reduces overall splice time but can also be used in manual style
- High capacity lithium-ion battery (up to 300 splices)
- Patented easy splice protector positioning system
- Universal sheath clamps for standard 250 um fibre but also 900 um loose tube fibre types.
- Fibre Retention clamps
- Enabled with Fujikura's unique "Active Blade Management Technology" with new capability to link up to 2 CT50 cleavers simultaneously.
- A completely redesigned multi-function carry case and workstation
- Tool-less replaceable electrodes
- Touch screen

Automatic Core Alignment Fusion Splicer Includes

- Carry case with worktable,
- spare electrodes,
- PC software,
- USB lead,
- ADC-20 AC adapter.
- CT50 cleaver Included.
- BTR-15 battery pack,
- J-Plate,
- SP-03 Fibre Holder Set Plate
- SS-03 Trihole Strippers.
- 2 year parts and labour warranty on splicer only
- 1 year on cleaver and 3 months on battery
